THANKSGIVING.

You can not thanksgive to-morrow by posing. You might deceive others by so giving is only an expression of being Peachy on "Half Hour in the Corn Field," glad of being alive. If you are truly "Hogs For Profit," "Inside of the Farmconscious of that feeling there will be er's home," "Nature's Study in the Pubno posing in your thanksgiving, you will lie Schools," "Soil Improvement" and show your feeling and it will be reflected "The Making of a Farm." in every one about you and then in your life will come to pase the condition sung HAPPENINGS AT HAMMERS' HALL of by the Pealmist, 'O let the Earth bless the Lord. LACK OF TASTE.

Governor Pennypacker may seem t many a nice, harmless old man; he may have a penchant for historical subjects as to make him an authority in that line, he may even outside the libel bill, age, yet when he opens his mouth at banquet or elsewhere, so many fool things fall out of it that one necessarily wonders how the fool killer came to let him live. Only several weeks ago, since election, in a speech following a banquet be declared there was no America equal to Quay. Here are his exact and in a rare order of ability, there has never been in public life in America his equal." The surprise is that Cousin Matt's inwards do not revolt over these sickening doses and he does not write, "Dear Samie—Don't Talk."

TEACHERS INSTITUTE,

Gettysburg always gladly welcome institute week. We like to have the teachers of the county with us. We like to come in contact with those who are helping to develop the man and woman of to-morrow. They always have our sympathy and encouragemen We enjoy that which is for their instruction and entertainment. There is just one suggestion occurs. These institutes are so good that they should be preserved in permanent form. If the teacher, after having caught the lecture or address as impressed with the personality of the speaker, should have the spent two days out in the Valley hunting same afterwards in permanent form to refer to in his or her work, the benefit would be incalculable. Hence we suggest that the business end of the instr tute authorize that the proceedings hereafter be taken in short hand and afterwards be preserved in pamphlet form.

PUSH GOVERNMENT BUILDING.

What has become of the project for Government building in Gettysburg A petition was signed by many of our citizens but as it was understood it reached Congress too late to receive any girls saw a young deer come down shrough the corn field near the house and consideration. The regular session of Congress will be on within a week. The promoters of the idea should stir themselves. If the memorial to Congress was pigeon-holed, it will stay that way unless it is agitated. Perhaps Congressmountain. The children were delighted man Lafean might like the job of hustling up an appropriation for it. He to see a little deer so near home. s. c s. might be able to show his party in the use that it would be a compaign card ALL OVER THE COUNTY for him next year. Then Quay migh not lose anything by remembering his adherents up this way. It matters littl dence in Bendersville to York Springs how we get it only so we do get it, for Gettysburg deserves a Government building more than many other commu nities already having them. WHY NOT TRY THE GOOD ROAD LAW housand miles of public roads in the tion half the year. The State has volto travel over, so that they may save their horses, and their wagons. Believing that early environment has much to do with the development of the childs character, the child's environment must be such as to make it a person of strong mind and body. As much of its early life is spent in the school room, the teacher must make the schoolroom the embodiment of thoroughness. The sarly life is spent in the school room, the teacher must make the schoolroom the ambodiment of thoroughness. The teacher cannot do this alone. It takes interest in our work from those without the achoolroom as well as from those without the achoolroom as well as from those within. Benefite may be derived within, but it takes the recognition of these from others to make the work complete. Such interest is and recognition of their efforts are to the teacher and pupils their rewards. It strengthens the determination and will to bring about the best results.
